London, March 3.—According to what appears to be the almost unanimous opinion of British observers, Germany and Austria are playing a losing game along nearly all the eastern front. The situation of the Austrians in the Carpathians, judging from official and unofficial dispatches from Petrograd seems unsatisfactory, while the Russians, it is said, have definitely checked them in Eastern Galicia. Furthermore London advises continue to relate successes of greater or lesser degree for the Russian forces in Poland operating against the armies of Field Marshal Von Hindenburg.

German Correspondent Says Russians The Losers

PROPOSED LIQUOR WILL BE ALTERED GREATLY

Columbus, March 3.—Senate leaders today announced that the McDermott bill to decentralize the saloon licensing system, would be amended materially, but that it would be used as a basis for license reform legislation. Previous reports were that a substitute bill would be drawn to eliminate a number of features frowned upon by liquor interests. It was said by senate leaders that Senator Moore, of Jefferson, probably would not introduce the bill he has spent weeks in preparing.

It was also said to be improbable that a bill providing for creation of about sixteen licensing districts in the state, with two commissioners in each appointed by a state licensing board of two members would be presented, although Senator Moore and Senator Archer, of Noble, have been inspecting this measure for some time. It was prepared and submitted by Charles E. Waggoner, of Fremont, Sandusky county liquor license commissioner.

Among the changes in the McDermott bill which probably will be made, it was said, is to permit brewery wagons to continue delivering liquor without paying a license. This is forbidden in the McDermott bill as drawn originally. The method of electing district licensing officials by a board of county clerks, with a state inspector to enforce the law against "speakeasies" will be retained, it is expected.

Washington, March 3.—Administration officials were unanimously encouraged today by the unofficial accounts of the German notes. While unofficial reports from London on Great Britain's attitude on the same subject have so far been indefinite, officials here take the view that the German note may have some influence upon it. They hold to the view that the position of the United States is absolutely in accord with international law, although they realize that Great Britain has taken a very advanced stand in her latest note.

Congress Has Mass Of Work To Clean Up Before An Adjournment

Washington, March 3.—The sixty-third congress swings into the last 24 hours on its life today confronted with a mass and jumble of work which must be done before noon tomorrow. Both house and senate will be in practically continuous session until adjournment. One by one, the accumulation of bills and resolutions were being disposed of and sent to the White House for President Wilson's signature but the closing hours were without threats of failure for some measures.

So much work on the appropriation bills remained to be done that administration leaders did not hope to see any of the Democratic legislative program passed. They expected the ship bill, the Philippine bill and other measures would have to go over for the next congress.

Two Anarchists Are Held By Indictment

New York, March 3.—The grand jury today began to consider the cases of Frank Abarno and Charles Carbone, the anarchists accused of plotting a dynamite war against churches and men of wealth, who were arrested yesterday after the police had foiled an attempt to explode two bombs in St. Patrick's cathedral.

The district attorney said he would ask for the indictment of the men under a section of the penal law providing a maximum penalty of 25 years in prison.

Emilio Poligant, the young detective, who under the name of Frank Baldo was taken into the confidence of the anarchists, was the principal witness summoned before the grand jury.

Within two hours after the jury went into session indictments were handed down against Abarno and Carbone charging them with placing a lighted bomb in a public place in violation of a section of the penal code.

RECOVER 13 BODIES FROM WRECKED MINE; SEARCH CONTINUES

Hinton, W. Va., March 3.—Trained miners, working under the direction of engineers of the federal bureau of mines, today penetrated the entire length of the entrance of the Layland mine where an explosion occurred yesterday. Three bodies were recovered, bringing the known dead to 13. Leaders of the rescue crew expressed the opinion that when the rooms were reached many more bodies would be found.

Emil Henry, chief of the West Virginia mining department, today made an estimate of the number of men who entered the workings were filled with air, and he believed many lives had been lost. He thought two or three days might pass before the mine was clear.

Officers of the company refused today to make an estimate of the number of men who entered the workings yesterday as records of men employed in mines usually considered safe are not often kept.

A cohort of coffins arrived at the mine this morning.

COURT HOLDS B. & O. INSURANCE ILLEGAL

Cincinnati, March 3.—Common Pleas Judge Cushing in handing down a decision in a suit here today ruled that the million dollars insurance fund of the Baltimore and Ohio Southwestern railroad is illegal in the state of Ohio.

The question came up in the case of Joseph Bailey, a switchman, who sued the Baltimore and Ohio Southwestern to record payments made into the insurance fund which he alleged were compulsory.

Judge Cushing upheld the contention of Bailey's attorneys and ordered the money returned. Attorneys for Bailey claim that the suit will undoubtedly be taken to the supreme court of the United States and that if Judge Cushing's ruling is upheld the entire amount in the insurance fund will have to be paid back to those who put money into it.

Social Clubs Will Fight Liquor Rule

Cleveland, March 3.—Representatives of social, political and fraternal clubs, who will be affected by the action of the brewers and wholesale liquor dealers who yesterday announced they would not sell them beer or liquor in large quantities unless they submitted proof that the "wet goods" was not to be used by Sunday clubs, today, said they planned to file suits charging violation of the Valentine anti-trust law, on the ground that the liquor men's agreement amounts to a combination in restraint of trade.

Their first step, the club men said, would be to ask the county prosecutor to make an investigation with a view of starting proceedings against the liquor men. If this was not done, they said, their own attorneys would take up the case.

Emilio Poligant, the young detective, who under the name of Frank Baldo was taken into the confidence of the anarchists, was the principal witness summoned before the grand jury.

Within two hours after the jury went into session indictments were handed down against Abarno and Carbone charging them with placing a lighted bomb in a public place in violation of a section of the penal code.

COUNCIL IS EXPECTED TO TAKE STEPS FOR MANY PUBLIC IMPROVEMENTS

Mayor Frick expects to submit to city council tonight a summary of contemplated improvements that have been outlined by the board of control for the present year.

The list includes: The proposed re-fill bridge at the Point, corner Second and Scioto streets to restore the present system of flood defense to its former usefulness.

The extension of the present flood wall over Chillicothe street and eastward on Mill street as far as practical until the eastern limits of the city have been entirely protected.

The construction of so much of the Lawson's Run sewer this season as may be possible, beginning in the Cecil Miller addition and extending southward with plans for its ultimate completion within the next or succeeding year.

The motorizing of the present

fire department, dispensing with horse-drawn equipment; the proposed Lawson Run viaduct or overhead crossing; the continuance of the present system of street paving; the revising and bringing up to date a list of water consumers; the installation of sidewalks where property owners refuse.

The mayor, realizing that it will be impossible to carry on all of these improvements with the finances available at present, will recommend to council that the finance committee provide ways and means to provide for the expense of such improvements.

As it is the purpose of the board to carry on all public work with its present officials and assistants, the mayor will suggest that whatever improvements meet with council's approval the necessary appropriations be made at the earliest date possible to the end that the engineering department may prepare all preliminary work

during the spring time to insure their completion during the summer and fall months.

The mayor will say that in his opinion the present legislature will restore the limitation of the Smith one per cent law which will prevent the expenditure of more than six per cent of the public money in the next ensuing year than was expended the year previous. If this be done and these improvements are not undertaken this year it may be a handicap during the ensuing year owing to a failure in expending a part of the money this season upon which expenditure the increase will be granted the year next following.

The experience of some of the municipalities of the state whose expenditures during 1910 were below what was necessary to carry on their work the year following resulted in disapproving that part of the taxation limitation and therefore ought be guarded at this time.

SHOT AT DUCK, HIT A DOCTOR

Dr. W. E. Nichols of Fullerton, was shot in the back of the head, but luckily was only slightly wounded by hunters, who were shooting ducks in vicinity of Tygart Bend, Tuesday afternoon. The boys had a shotgun and as Dr. Nichols came along they opened fire at a duck and he was in the path of some of the shot, suffering very slight flesh wounds.

It was reported that Dr. Nichols

had been ambushed but this was denied by him. He has the names of the boys who handled the shotgun and has held them blameless after investigating.

Dr. Nichols says he was obscured from the boys' vision by a clump of trees and they had no chance to see him. He was able to make calls as usual Wednesday and was summoned to the new government dam below the city by a workman who was taken ill.

At a meeting last night held in the assembly room of the Hotel Kann-Whu, which was attended by stockholders and those interested in the club, it was definitely decided to have a club in the Ohio State League. Some surprises are in store for the local fans when an expected announcement will be made after a meeting to be held in a few days.

BRUTE CLIMBS IN WINDOW; ATTACKS A LITTLE GIRL

Fred Armstrong, a city garbage man, was awakened from his sleep by the screams of an eight-year-old daughter at his home, No. 917 Fourteenth street, Tuesday night and found an unknown brute had choked her.

The child was asleep in bed with two other little girls when

attacked and in the dark was unable to see her assailant or tell whether he was white or black. Investigation showed the man had climbed through a window by placing a barrel against the outside of the house.

Armstrong told the police that he had heard no one running from

the premises nor was he able to find the slightest trace of the intruder. The officers were inclined to the belief that the motive was robbery and that the unknown probably had designs on Mr. Armstrong's money, having drawn his pay check Tuesday.

Fifth National Orange Show Held In San Bernardino, Cal.

Mr. and Mrs. George D. Selby, who recently went to California on a pleasure trip and who are to be joined there by Judge and Mrs. J. W. Bannan, of this city, have kindly sent The Times a complete account of the Fifth National Orange Show, which opened in all its glory at San Bernardino, Cal. Relative to the grand display of Southern California's "golden wealth" a special from San Bernardino, says:

The opening signalized the beginning of a new era in the citrus fruit industry in California, an industry which annually yields almost 50,000 carloads of oranges and lemons, and a net income of \$37,000,000 for the growers. For 1915 is the opening of the fourth decade since the first oranges were harvested in Southern California. The formal opening at 8 o'clock took place in the main tent an hour after the doors were opened to the throng waiting at

the gates. The exhibition is a wealth of color and an expanse of bloom. Oranges, lemons, grapefruit, tangerines and other varieties of citrus fruits, flowers, all in attractive designs and displays, are combined to show to the world the wonders of the golden industry of the Southland. Motion characterizes almost every feature of the exposition. From the orange bath-house of the Pacific Electric, where disport six shapely mermaids, assembled not only for their beauty and grace, but their ability in diving and swimming, to the peeling-house of the Fontana company, where the golden fruit is laid in the boxes for shipment to the world as souvenirs of the National Orange Show, mobility of detail is a marked quality.

With the exception of a very few exhibits in the industrial tent, which are largely of a commercial nature, the orange show was in complete readiness for the opening. Every feature exhibit in the mammoth fruit display had been finished, every one of the 6,000,000 oranges was in its place, and orange show officials beamed upon the results with radiant countenances, for their work of months was a visual reality.

Solid banks of fruit line the sides of the tent piled tier upon tier in artistic display, for these are entered in the competition which is the incentive for painstaking efforts in arranging and installing the boxes.

In the center are arranged the features, and in positions about the tent are the interesting table displays of unusual fruit.

Thousands of flags and colored lights form a canopy for the show and the decorator's art reaches a superlative plane in this respect. About the tent forming a pathway for the throngs are rows of orange trees in bearing and pedestals of orange lights, on the whole forming a fairy land of fact that is entrancing. While the tent is thus bricked in festive paintment, without the streets of the city present a dull glow. Every building is adorned in the colors of the show, while millions of lights, illuminate the thoroughfares. The spirit and romance of the orange has entered the populace and they in turn are imparting it to the visitors.

KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood, and it is the function of the kidneys to filter out acid from the blood and pass it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, sprains and pain called rheumatism.

At the first twinges of rheumatism get some good pharmacy about five ounces of Dr. Williams' Pink Pills for Pale People, and take a teaspoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Dr. Williams' Pink Pills are a safe and effective remedy for rheumatism. They are made from the purest ingredients and are guaranteed to give relief.

Thousands of flags and colored lights form a canopy for the show and the decorator's art reaches a superlative plane in this respect. About the tent forming a pathway for the throngs are rows of orange trees in bearing and pedestals of orange lights, on the whole forming a fairy land of fact that is entrancing. While the tent is thus bricked in festive paintment, without the streets of the city present a dull glow. Every building is adorned in the colors of the show, while millions of lights, illuminate the thoroughfares. The spirit and romance of the orange has entered the populace and they in turn are imparting it to the visitors.

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—gains in lower part of back and inside, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. Augustus Lyon, Terre Hill, Pa.

It is true that nature and a woman's work has produced the greatest remedy for women's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womanhood a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for women's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

STOP COUGHING

Mr. Andor Kiss, No. 313 Clinton Place, Kansas City, Mo., writes: "I cannot thank you enough for being cured. For seven long years I suffered steadily for my catarrh and cough, which cost me hundreds of dollars. But my catarrh grew worse all the time. Even though I was under the treatment of some of the most famous doctors, I still had a terrible cough and expectorated sometimes that I would choke. I could get no air. It then dawned on me that I was not following the directions and I felt better. Three days later I felt much improved, and today, after the use of the fourth bottle, I feel entirely cured. I can conscientiously recommend this grand medicine to every citizen."

A Good Cough Tablet. There are people who object to taking fluid medicines. For such people the Eucalypti Tablets are especially valuable. They are convenient to carry in the pocket.

Frank Bussler

Frank Bussler, who had been unconscious since Monday night, passed away at his home No. 345 Second street, Wednesday morning at 9:30 o'clock.

Mr. Bussler, who had lived only Thursday, would have been 54 years of age, had been bedfast with dropsy for the past three weeks. His health began failing him a year ago and for some months past he had been a mere shadow of his former sturdy self. In his death the West End loses one of its best known and most popular citizens, a man of jovial disposition, big hearted and liked by all who knew him. His Banner shoe shop will long carry with it fond recollections of his pleasing personality and he will be missed among a wide circle of friends.

Born in the West End, the son of the late Jacob and Margaret Bussler he lived in that part of the city all of his life time. Like his father he became an expert shoemaker and enjoyed a patronage that extended to all parts of the city. He was always a staunch Democrat, but never cared to accept any honors at the hands of the party he loved. He was married 24 years ago and his wife, Mrs. Isabel Bussler survives him with two step children, Mrs. Charles Kirsch and John Kuntz. Besides he leaves one sister, Mrs.

LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use Grandma's Sage Tea and Sulphur. Recipe and recipe can tell. Buy it through mail.

Gray hair, however, handsome, denotes wisdom. We all know the advantages of a youthful appearance. Your hair is your crown, it makes or mars the face. When it falls, turns gray and looks dry, limp and scraggly, just a few applications of Sage Tea and Sulphur restores its appearance to a youthful fold. Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyneth's Sage and Sulphur Compound." Thousands of folks recommend this ready-to-use preparation, because it restores the hair beautifully and cures dandruff, stops scalp itching and itching hair; besides, no dye can possibly tell as it darkens so naturally and surely. You moisten a sponge or soft brush with it, drawing this through the hair, making one small strand at a time. In morning the gray hair disappears; after another application, deep tan, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

NEW YORK STOCK

New York, March 3.—A further upward tendency was shown by today's stock market on the more favorable view of the foreign situation.

Overnight advices from abroad, particularly Germany's reported acceptance of this government's main proposals were favorably received in the financial district today judging from the early course of the market. Leading shares made further fractional gains and some of the specialties increased their recent advantage. Trading was far more active, than usual, with indications of a moderate investment demand. Among the few features of weakness were Harvester corporation pfd., which sold at 96, compared with 114 at its previous sales some weeks ago. Distillers bonds also were heavy.

Prices continued to rise during the morning, but business became lighter after the early demand had run its course. Gains in active stocks like the Coaders, Canadian Pacific, Northern Pacific, United States Steel and American Smelting, were extended to a point or beyond. Shares of cotton roads were prominent. Southern Railway pfd. and Atlantic Coast Line recovering part of their recent declines. Minor shares, American Can and more obscure specialties participated in the advance to my appreciable extent. Central Electric was among the few high class industrials to show weakness. Foreign bond selling was increasingly extensive at concessions.

Investment stocks were in demand toward the end of the session. Ifill issues showing particular strength. The close was strong.

CHICAGO GRAIN

Chicago, March 3.—Wheat prices took an upward swing today, influenced by the failure of the lower market to reflect the declines which took place yesterday in America. The bulls were also encouraged by reports tending to disprove assertions that domestic growers had been hoarding reserves. Besides there were advices of unfavorable weather in Argentina, the opening, which varied from one to 2½ cents higher, was followed by some further advances and then a moderate set back.

General commission buying put strength into corn. Offerings were rather scarce, apparently owing in part at least to unsettled weather. After starting ½ to ¾ higher, prices continued to ascend.

Outs climbed with other grain. Export houses were buyers.

Free selling, presumably by packers, weakened provisions. Most of the unloading was of pork.

The reaction in wheat wiped out later all the advance, but the market soon hardened again. Export sales in the United States today were said to amount to 1,000,000 bushels. Assertions, though, that England had purchased the entire Argentine crop, surplus for 1914 and a hearish effect at the end of the session. The close was weak but 1½ to 2 cents above last night.

A sug in corn ensued when wheat had a temporary drop. Sea-board demand, however, led to a rally. The close was unsettled at 1½ to 1½½ above last night.

A PROBE COMMITTEE IS STILL BEING SOUGHT

One Member Sure And L. C. Turley May Be Another

It was given out at the mayor's office Wednesday afternoon that Leslie C. Turley would probably be the second member of the committee to probe the Morning Star's accusations against Dr. Jos. Lake and the public safety department.

Mr. Turley when asked about the matter made the following statement to the Times:

"The mayor has not asked me to serve but it was intimated to me that I might be asked and it was understood that I would do so solely on three conditions. I would want to know the personnel of the balance of the committee, secondly I would want the committee to have legal authority to summon witnesses and third it must be understood that the investigation would be solely in the interest of justice as it might be found."

The mayor said he was willing that Mr. Turley and Harry Strong, who has agreed to serve, select the third member of the committee.

Mr. Turley, if he accepts, will represent the manufacturing interests of the city and Mr. Strong the labor interests of Portsmouth.

SUGGESTS WOMEN ON COMMITTEE

A communication that was signed "Woman Tax Payer" suggests to the mayor that the probe committee consist of two women and as many men. The card writer states that as the best women of the city were indirectly the means of building Hempstead hospital

"I'LL DO MY DUTY" SAYS MAYOR

The mayor said Wednesday that he felt if he launched into any personal controversy with newspapers regarding the present case it would be a reflection upon the citizenship which he believed had confidence enough in him that he would perform his duty once the investigation is concluded. "And I'll do my duty always," he added. He said his files are open to inspection to disprove that although he has been quite extensively quoted at different times by the Star he has said nothing to that paper save what he said verbally to one of his reporters which in effect was that

MAYOR WILL ENTER "BOMB PROOF" CELLAR

The mayor also announced Wednesday that he had decided to remain away from the hearing and investigation should a committee be secured to act and would have the committee's meeting presided over by one of the judiciary of the city. He would pass upon the findings of the committee as presented to him.

Dr. Lake had nothing particular to say Wednesday save that he was anxiously awaiting the investigation. He said his department had at all times been open to inspection and that he had no fears as to the outcome of a probe no matter by whom it might be

WANTS CHARGES PRODUCED

"It's up to the Star to produce its charges now that I have publicly requested and demanded an investigation," said Dr. Lake.

The mayor let it be known again that he will always insist that the city hospital be conducted and regulated that it was open to inspection by citizens and the public generally at all times and if conducted as it ought to be no visiting committees were necessary.

The mayor said the attitude of the Morning Star as to the dismissal of William Ballman as city building janitor was ridiculous. "Any citizen's good judgment

SAYS MAYOR IS BLUFFING

Under the caption "The Mayor Is Bluffing," the Star commented as follows this morning on the situation:

"There will be no investigation of city affairs if city officials can help it. So far as they are concerned it is the last thing they want and what they have done up to date is all a gigantic bluff."

"The very proposition advanced by the mayor, that he would appoint an investigating committee, the personnel of which should be subject to the approval of those to be investigated, showed on the face of it that no honest investigation was contemplated. It was an absurd proposition. Those to be investigated were to select the judges. Did you ever hear the heat of that? The bombastic interviews, the heart-throb letters, all bluff."

"The mayor has been mighty 'nosey' about the private affairs of all sorts of people. He has put his police on the track of dozens of cases that were none of his business nor the business of the police. Officers have swooped down on the innocent stranger who waited too long for his car. Barking dogs, crowing roosters, over-loud pianos, have been investigated by the Grassville squad, not once but many times. In fact

TAXATION REFORM BILL READY FOR LEGISLATURE

Hempstead hospital. "What the Star said this morning was the truth," is the remark of a prominent saloon keeper. "I am sick

SOME FOOD FOR THOUGHT

"If the mayor really wishes to know, let him inquire for instance whether the night sergeant has or has not given patrolmen credit for time when he knew they were not on their beats?"

"Inquiry might also be made as to whether the city service was ever used to meet people at the theatre and take them to the city hospital. If so, how often was this done, and at whose

instance? Who drove the car? Was he a licensed chauffeur? Is it true that patrolmen are in the habit of getting free drinks and cigars in Portsmouth saloons?"

"These are just a very few of the things which might profitably be investigated by his Honor. When the supply gives out we can give him some more. These are merely minor matters, just to break the mayor in gently to this investigation business."

State League Will Have New President

President R. W. Read, who has presided over the Ohio State league for sometime, will not be its executive head this season.

"This announcement was made at a meeting of the league officials and club owners held in Ironton Wednesday afternoon. Read has agreed to step down and out it was announced and a man will be elected to take his place, who will devote all of his time to the affairs of the league."

A salary limit of \$1,000 per annum is to be adopted, there will be a 12 player limit to be rigidly enforced and the schedule will likely call for 126 games, season to open middle of May and close on Labor Day.

The present plan is to compel each club to carry eight recruits

and not more than four players who have had previous experience. The Charleston Exhibition company which operated last year's team in Charleston, will be dissolved and L. E. Smith will place a team in that city. There is talk of having four teams from this section and four teams in Kentucky to compose the league. The cities mentioned are Huntington, Charleston, Portsmouth, Ironton, Richmond, Frankfort, Lexington and Maysville, Ky.

Those in attendance at the meeting are President R. W. Read and Joe Carr of Columbus, L. E. Smith and Billy Beers of Charleston, William Gableman, Raymond York, Billy Doyle and Win. Zollman of Portsmouth, Dick Smith of Ironton and Tom Sheets of Lexington.

GERMANY'S ATTITUDE

(Continued From Page One)

sea traffic with Germany forms the basis of most of the political comment published today in England. The London papers, through their Washington correspondents, all have been inclined that the United States will protest vigorously and protests are expected also from Holland and the Scandinavian countries.

Yet it is not believed that Great Britain will recede one whit from her announced intention, but that she will define her blockade measures and seek to make them effective. It is argued in London that Germany, without domination of the sea and carrying on an attempted blockade by means of submarines, is quite naturally willing to make concessions regarding her marine war zone in return for Great Britain's relaxing the pressure designed to cut off her supplies.

The British view is that Germany has everything to gain and nothing to lose.

Cut Off Rout Of

Turkish Reinforcements

Tiflis, Trans-Caucasia, March 3.—(via Tiflis and London)—The Russian army of the Caucasus driving the Turkish forces before it, has reached the river Khopra, the Bstany of the Petchurik in Armenia. This advance by the Russians cuts the route of Turkish reinforcements and supplies from Constantinople to the Caucasian frontier. The Russian forces advanced from Batumi, on the Black Sea, near the Turkish border and were opposed by the Turks at every step. They were assisted by Russian warships, which cleared the shore of Turkish forces and cut off successively several avenues of Turkish communication by sea until only one route remained. After a battle of three days this last route was closed effectively.

INFANT SAID TO HAVE PROPHESED END OF WAR

Chris Shepherd, of Danville, Ill., who is visiting his mother-in-law, Mrs. S. S. Cook, of 1149 Eleventh street, has an interesting story on the European conflict which was printed in Charleston, Ill. The special reads as follows: Louis Smith, the shoe repairer, who is a regular subscriber to a Russian newspaper ran across a peculiar and most unbelievable item in his newspaper this week. The item is to the effect that recently a three weeks old child in the war regions of Russia, actually sat up in its little bed and talked. The mother had left the house on an errand when the baby began to talk and the little sister who was there realized that such a procedure was unusual and ran to the door and screamed. A large crowd collected, among them the mother, and

when she entered the room, the infant instructed her to send for the Rabbi. Upon his arrival, the baby told him the world's war would be the most severe next summer and battles much greater than in the past, would be fought and the country be bathed in blood until shortly after the Jewish New Year which comes in October after which peace would be resumed. The baby died after making the prophecy and according to a big funeral and much honor to be bestowed upon the infant. Remarkable although it may seem the child did not prophesy that the forces of the czar would win in the conflict. It presumably thought best to remain neutral on the subject, as an assurance of victory might cause a full in the fighting among Nicholas and soldiery.

Fourth St. M. E. Revival Grows

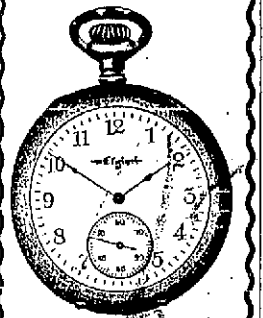

The evangelistic services at the Fourth Street M. E. church are still continuing with unabated interest. Last night the time was given to Dr. F. W. Schneider, Sunday school evangelist, whose address on "The Objective of the Sunday School" was inspiring and helpful. The conference hour with the Sunday school workers was also very profitable. The salvation key-note will again

be sounded tonight when Rev. Marting talks about "Mr. Can't Give-Up." If you are the fellow come and hear about yourself. These meetings are for your benefit. The male quartet will appear again tonight with one of its splendid selections. The service begins at 7:15. You are welcome. Cottage prayer meetings were held yesterday at the home of Mrs. L. Blumeyer of Seventh St., and today at the home of Mrs. B. Rensing of Ninth street.

STOMACH TROUBLES DUE TO ACIDITY

So Says Eminent Specialist

So-called stomach trouble, such as indigestion, wind, and stomach-ache, is probably caused by too much acidity. Evidence that fermentation is taking place in the food-stuffs of the stomach, causing the formation of gas and acid, is that the stomach is full and causes that full, oppressive feeling sometimes known as heartburn, while the food is still in the stomach, and the food is not yet digested. The trouble lies entirely in the fermenting food. Such fermentation is a natural and good thing, but it is not only undigested, but also produces an acid, which is a dangerous condition. BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—has a mild but sure laxative effect. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel, a drug which is so expensive to the body. Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets do the work. Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets where you feel "heavy." Note how they "clear" cloudy brain and how they "pick up" the spirits. At 10c and 25c per box, Dr. Edwards' Olive Tablets. The Olive Tablet Company, Columbus, O.

Bloodhound On Trail Of Store Robbers

Roy Lynn's blood hound was used to trail robbers who visited E. and C. Higgins' general store at McDermott Tuesday night. The blood hound was sent to the scene about 8 o'clock Wednesday morning and at once caught a scent. It struck a trail that led in a southwesterly direction for a mile and a half coming to a stop at an unoccupied house. Entrance to the store was gained by forcing a rear window with an axe that had been taken from an N. & W. tool house nearby. The robbers took a box of cakes, a quantity of cheese and are also thought to have helped themselves to some shoes.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT DANDERINE

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A Little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and care-

fully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, and incomparable softness and luxuriance, the beauty and shimmer of the hair itself.

Get a 25 cent bottle of Knudsen's Danderine from any drug store or toilet counter, and prove that your hair is a sprightly and soft as any—that it has been neglected or injured by careless treatment—that's all.

In Constantinople

An old Waverly boy, Safford Taylor, oldest son of William F. Taylor, cashier of the First National Bank of Waverly, is located in the heart of the war zone as representative of the Standard Oil company in Constantinople, according to word received here Wednesday. Young Taylor has been in Constantinople for some time as one of two hundred or more Standard Oil representatives.

Recently, when the situation there became acute, the govern-

ment ordered all English-speaking men and women to leave the Turkish capital. Taylor at that time was on a business trip to Smyrna, and when he returned, the order had been carried out. The Standard Oil company in the meantime had taken up the matter with the state department and secured permission to permit Taylor to remain in charge of the office, since he was an American subject. He formerly was employed by the Standard Oil company in Columbus.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, wars, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise care The Daily Times, Portsmouth, O. Office Phone 60. Residence A-410.

Dear Miss Wise—As this is my first letter I hope you will kindly consider it. I have been acquainted with a fellow about a year and have always regarded him as a true friend and gentleman until recently, when I learned that he not only tells falsehoods, but goes about trying to slander one whom he knows nothing about, and whose character is spotless. Your advice will be appreciated.

A FRIEND.
Men and women who go about trying to slander others, ought to be tarred and feathered. If the things he said or not true, you can have him arrested for slander.

Dear Dolly—Would you be kind enough to inform me if city street sweepers are supposed to sweep all the streets or just certain ones? Kinney's Lane has been paved almost a year, and the tax payers up here think they are entitled to some consideration. Sand and dirt about three inches deep, with automobiles keeping it stirred up all the time, makes what ought to be one of the best streets in the city about the worst over.

DUSTY ROADS.

cube from Ashland, Ky., said that all you need was to let the anchor down and it would stop the ship whether it caught or not.

ROUND HEAD JACK.

No. Your friend from Ashland evidently doesn't know anything about a ship.

Buena Vista, Ohio—Dear Miss Wise—Who can we go to in Portsmouth that will help us to keep the boys of this town from getting whiskey? They can get it any time and none of them are twenty-one years old. We know just what boys had a drink, also how they got it.

A FRIEND TO THE BOYS.

Lay the matter before the prosecuting attorney or file charges before any magistrate.

Dear Miss Wise—Will you please tell me how to go to Portsmouth, Va., on the C. & O. by a freight train?

ANXIOUS.

Better take an N. & W. freight to Norfolk, Va. Then all you will have to do is cross the James river to Portsmouth.

Dear Dolly—Excuse me for addressing this to you, but I would like to have a little information which I know you can furnish me. I have never asked for any advice from you, but you have helped others and perhaps you can help me. I am a married woman, age 25 years, and have been married six years. I have never had any luck with my husband. When first married we lived together about eight weeks, and he got mad at me. Dolly, I have been staying at home with my people and I love him very dearly. I hate to give him up so what shall I do toward him? Please advise me what to do. Should I get a divorce from him or not? I have lived with him

different times and he skips out every time.

UNHAPPY WIFE.

Go to your husband and have a heart to heart talk with him. Ask him to go to housekeeping again. There must be some reason why he does not want to live with you. Find out if you are to blame and if so, resolve to turn over a new leaf. There is no reason on earth why a husband and wife cannot get together and adjust matters to the satisfaction of all concerned.

My Dear Miss Wise—I have been reading with great interest the letters put in the paper about the flirting and conditions of this city, and I have been in several cities but I have never seen one like this for its "flirting", but I am a young girl myself and am respected by all who know me. I do not lay all the blame on the girls, for I think the boys have a hand in all of the doings, and the boys' conduct in public is not very creditable, and such things as boys asking girls to go "joy riding" with them is not at all true. And they are always talking about "Chicken hunting", and I know of certain instances where the boys coax the girls just to go a little ride with them, and if some of their parents knew how they use their automobiles they would absolutely forbid the boys the use of them, and I do not respect the boy that would smoke a (cotton) cigarette in the presence of a girl, and Miss Wise what is your opinion of young girls going to parties at night with boys? Traveling men say this is a very fast town for its size. I hope I have your approval upon this.

A YOUNG GIRL.

Hanford, California—Dear Dolly—Do you think it is proper for a young girl to ride a motorcycle? I have brown hair, brown eyes, freckles. I am five feet six inches, weigh one hundred and thirty. Do you think I am nice looking? Would you please send me a couple of names of the young men of Portsmouth, Ohio, as I want to get acquainted with some of them.

CALIFORNIA POPPY.

I do not approve of girls riding motorcycles. Besides being un-ladylike, it is very dangerous. I imagine you are quite an attractive looking young lady. I do not know any young men that I could recommend to you as a possible husband. Around there any young men in the Golden State?

Miss Dolly Wise—How do you clean white window shades? Should trams curtains be used on doors not opening outside?

A HOUSEWIFE.

If the shades are linen they can be laundered nicely. Spots and general dinginess may be removed by laying the shade upon a clean table and going over it with a block of English magnesia. Rub in thoroughly and cover to exclude dust, and leave alone for a day. Then brush out the powder. A wall paper cleaner, or bread crumbs might be used. Some people turn their shades upside down, when the lower half gets soiled. You can suit yourself about inside transoms covers. Personally I don't care for them.

The skirt was finished in round length and the bodice cut V in the neck and short sleeves. The trimmings were bands of silver. She wore a corsage bouquet of yellow lilies. The color scheme was yellow and white, and the table was beautifully adorned in yellow and white blossoms and yellow shaded candles. The Matinee musical Club, one of the best organizations of the kind in Cincinnati recently gave a most delightful concert, which was featured by the appearance of Miss Lorena Zeller. Miss Zeller is a niece of Mr. William C. Zeller, who is a frequent business visitor here and she has visited Mr. and Mrs. Adolph Hurth, Sr., of Second street.

Relative to Miss Zeller's appearance before the Matinee Musical Club the Cincinnati Commercial Tribune said:

The final number was given by Miss Lorena Zeller, who made her first appearance before the club since her return from New York, where she has been studying under Oscar Seagle, though Miss Zeller never ceases to pay a glowing tribute to Mr. Bush Ford, whose pupil she is and who has done so much for her in an artistic sense. Miss Zeller sings so well modulated and harmonized that her singing has a most soothing and restful effect to those who listen with keen and intelligent knowledge and who realize that a great future lies before this youthful artist.

Her sister, Miss Ada Zeller, who was the official accompanist, of the morning, in that capacity is without a peer. Both she and her sister have just returned from Chicago, where they went to give a song recital at the home of Mrs. George Ingalls, and a great compliment was paid Miss Ada Zeller by a group of Chicago musicians, who bemoaned the fact that their great city was without such a finished accompanist. There is no pianist who uses her arms and hands with more grace than Miss Zeller, and as for her playing, well, it is wonderful, and what is more, she is appreciated in her home town. Miss Lorena Zeller was as charming a picture as artist could fancy in a dainty Nile green taffeta made with a three-ply skirt, the rounded bodice edged with tiny pink rosebuds. Her picture hat was of green satin to match and was finished at the back with velvet streamers, giving her a most

quaint and girlish figure. Miss Ada Zeller was all in brown, a faint tobacco brown taffeta and chiffon, her black hat having many handsome white plumes.

Miss Lorena Zeller sang "My Lovely Colin", Wilson; "Come to the Garden, Love", Sator; "The Sleep that Flits on Baby's Eyes", Carpenter, and "Life and Death", Coleridge-Taylor.

Katharine Sage, an inexpensive but refreshing hair tonic, sold by Wurster Bros. is just what you need to remove every bit of dandruff, stop scalp itching, and make the hair grow long, soft, fluffy and beautiful.

Various games, including a peanut hunt, were indulged in, after which refreshments were served. The guest list included Sarah Louise Walker, Martha Louise Patterson, Virginia Pray, Mary Margaret Tenner, Norma Chior, Edward and William Crawford, Dorothy and Bertha Smith, Martha Jane Spencer, Martha Dufenberg, Helen Crevelling, Janel Miller, Mary Louise Selby, Mary Jane Strecker, Dorothy Mathiot, Martha Davidson, John Francis Wagner, Edna Tracy and Stanley Long.

The Willing Workers' Class of Manly Sunday school was entertained Monday evening at the home of Miss Edna Burton, on Summit street. Music and games were included in the pleasures. Those present were Misses: Shirley Roddis, Elizabeth Warrman, Sophia Shonkwiler, Elizabeth Shonkwiler, Neva Knox, Ross, Belle Burton, Iva Schultz, Edna Burip, of the class members; and Rev. and Mrs. Gilliland, Mr. and Mrs. S. S. Guffy, Messrs. George and Harry Jordan, Carl and Walter Bauer, Henry Burton, Charles Lenhardt, Harvey Warrman and Albert Shonkwiler were guests.

Well and Strong?

"A short time ago," says Mrs. Paul Amyot, of Houghton, Mich., "I was in great pain, suffering from pleurisy; they told me I was swollen all over, and whenever I drew a breath I would be cut by a pain. I do not hesitate to say that CARDUI saved my life. The first bottle relieved me, and I dropped those ugly sticking plasters that attacked me, whenever I moved. I sleep soundly, and wake up feeling fresh and well. I am so much stronger than before I was sick, and never have those weak, fainting spells, like I did. I don't look like the same person. I certainly urge every ailing woman to take CARDUI. The Woman's Tonic. At all drug stores."

Games Friday Evening
Rebels vs. Corn Shoppers, alleys 4
and 5.
Bald Eagles vs. Spiders, alleys 2
and 3.

The unexpected happened at the Play House alleys, Tuesday evening, when those lowly Corn Shuckers, super-inducted by a bunch of yells that would make a frat meeting seem like a Quaker meeting, arose in their might and power and whipped seven kinds of voodoo out of the Giant Killers, much to the delight of the enthusiastic multitude of rosters, who, running true to nature, pulled for the under dogs. The Corn Shuckers went upon the alleys shaking like so many scared kids when informed that the boogie man would get 'em if they didn't watch out. They spluttered around like so many leaky safety valves for a little while, but seeing that the Giants were that in name only, Captain Strimtmatter shot several hypodermic injections of soothing lotion into his men, who recovered from their stage fright and who then proceeded to ram a couple of beatings down the throats of the Giants, who stood meekly by and allowed the surgical operation to be performed without so much as making wry faces. The Giants came back in the second game and unmercifully trimmed the Shuckers, just to let the sixth placers know what a real good spanking felt like. Then they folded their weary arms and stood idly by while Captain Strimtmatter and his men returned the compliment with interest.

All this happened on alleys 2 and 3. Out on 4 and 5, the Cement Specialists got theirs at the hands of the Ivory Knobs, who quite chastely walked off the alleys with two out of three, after the Specialists had captured the opening game by a comfortable margin. The Specialists had it all figured where they would annihilate the second placers, but the best laid plans of mice and men, alas, are often foiled. The Specialists were not so much as making wry faces. The Giants came back in the second game and unmercifully trimmed the Shuckers, just to let the sixth placers know what a real good spanking felt like. Then they folded their weary arms and stood idly by while Captain Strimtmatter and his men returned the compliment with interest.

It seemed like old times last night, the lobby being packed with interested spectators, while the players set up like so many diddies on top of a tin dish pan. The Corn Shuckers had no more idea of taking two out of three than this writer has of owning a submarine. The sixth placers would have been delighted with one game. But the huge counts for little to the game of ten pins and someone upset the bucket at the blow off. Lead off man William Briggs, of the Corn Shuckers, who is without a doubt one of the most consistent performers that ever stepped on an alley, was a hot last night, and walked off with high average for the evening. He was unmerciful in his persecution and changed into the wood like a sharp shooter. Through his individual efforts, his team captured three games, although it must be admitted that he needed every pin that he garnered. He averaged a little better than 182 and that is going some on 2 and 3. Salem Shaw started out like he was after a world's record, and then came out and nailed the alleys and Salem stepped in his tracks. Ralph Marting had the satisfaction of ringing up the highest score of his bowling career, when he totaled 156 in his second game. Harry Engle took his time and was pretty well satisfied with his evening's work. Captain Strimtmatter plugged along with fair results, but hoped to do better the next time. Floyd Fuller was good and had in spots, getting 'em, so he said, when they were needed. He came through with enough in his last game to put the deciding contest on ice, and all in all was a pretty handy man to have around.

Charley Ross, lead off man of the Giants, could not locate the head on with any consistency, garnering many splits. He promises to come back next week with bells on. Ed Rieck was not far removed from his regular routine. Charley Deobler was not up to the mark, although he was not so bad as he might have been. Marie Duffell, who rolled two games under the colors of the Giants, had one poor game and one of fair proportion. He dropped out in all-out Dallas Lemon to roll the last game and Dallas hit 'em for a million, but only got 148. George Wilhelm, who had the Ivory Knobs single handed last week, topped the lumber for 115 in his seventh game, but his other two were shy several rods. Captain Sheridan held up his end.

Captain Perry Winkler Young was the heavy gun for the Ivory Knobs, he getting a splendid average and leading his toilers by a comfortable margin. Orelle Sprague had one of his usual out nights, although his scores could have stood padding and then would not have been of corn fed proportions. Raymond York was there in several instances, getting two dandy games after

a rather disastrous start. President William Zollman got better as the season progressed and was going like a quarter horse in his last game. McMain who rolls hither and yon, had a fair evening and helped mightily. Mr. Blad did fairly well, considering the poor fellow's vision. Is an unheard of qualification. Chad Herr led off for the Specialists, but did not lend his comrades in any mountain top. He did decently well, averaging 150. Druggist James Hager was all swollen up over his first game, getting 181, due to the fact that he dressed a lucky in the middle of the game. Thereafter he could not even hear a turkey gobble. Dan Lloyd, well the popular dentist, experienced chills,ague and lumbago last night, going through the evening without making a single strike, and that is something more than unusual. His scores speak volumes for ineffectiveness. George Freund had a fairly decent night at it. True, he didn't have any records, but he did fairly as well as his captain expected and probably a little better. Dr. Frank Freestone Spencer missed the first game and then made up for lost time by hanging up a couple of respectable scores while he did work. Captain Greveling got back after a two week lay off, and had a fair night. He expected to do better, so Chad Herr whispered around.

Well, the league is gradually approaching an end. Fifteen more games and the song will sound taps, bringing to an end one of the best leagues in the country, and the most successful one

SPORTLETS

It worst comes to worst this season, Bill Donovan can claim the protection of the American flag.

It's rumored that the government will place an embargo on arms. General Mack played that on Combs' and Bonder's long ago.

We'll soon be hearing of second Ty Cobb, Walter Johnson and Joe Jackson. But we'll have something on the big league managers, who have been looking for them for so many years. And they're still looking.

The White Sox have 35 payers at Pabst Babes, wherever that is.

An Volcan has been told to stay out of the ring six months on account of a bad arm.

Marquard has informed McGraw that he will win 25 games this season and possibly 25. Funny isn't it how they all win 'em in the gentle spring.

Christy Mathewson told for once to his life he was anxious to have the baseball season roll around. It must have been still picking in New York this winter.

That was good news from Chilly that the old team would be back in organized baseball. Lumsden, too, is nibbling at O. S. ball.

ON FIRST DIVISION

Scout Billy Doyle admits that the Cleveland Americans will finish in the first division this year. He thought they would win the pennant last year, but Billy like a lot more of us was wrong. Doyle has kept in touch with the situation and expects to grab several promising players for Cleveland shortly after the bell tups.

Baker In Training

Trappe, Md., March 3.—Home-run Frank Baker is keeping in shape by practicing with the Trappe High School nine. "Mr. Baker," as his neighbors call him, since he won big league fame and incidentally world's series dollars, had a clean record at the bat. He stood at the plate twice as a trailing pitcher or batted the sphere. Baker hit the ball, when upon batters' word, for each time he knocked out a pane of glass in the schoolhouse.

BLIND IN ONE EYE

New York, March 3.—Joe Sluagrine, lightweight boxer announced today that he cancelled all engagements owing to blindness in one eye and the danger of losing sight of the other. He had hoped that an operation to be performed by specialists tonight would restore his sight.

Sluagrine recently posted \$5,000 forfeit for the world's lightweight championship. He was to box Joe Mandot in New Orleans on March 7.

BOXING IS POPULAR

(Lima News)
When 1,500 persons attend a boxing contest, and at least 100 women are in the crowd in Lima, the sport must be much cleaner than it was several years ago when promoters were lucky to have 300 attending bouts.

MANY PLAYERS AT JACKSONVILLE, FLA.

Jacksonville, Fla., March 3.—Seventy-four major league ball players arrived here today by rail and steamer en route to the Florida spring training quarters. Harry Davis, captain of the Philadelphia Athletics, and 20 of his players, came on the steamer Apache from New York. Others arriving included 12 Brooklyn Nationals and 19 Philadelphia Nationals.

Condie Mack arrived last night by rail with 11 of his players. The Athletics will train in Jacksonville.

SWEENEY GETS JOB

Boston, Mass., March 3.—Billy Sweeney was today signed by Manager Bill Carrigan to play for the Sox this season.

Rickey Is Quite Modest

(Lima News)

Branch Rickey is a funny sort. Last spring when he began as manager of the Browns he started to do several things that had not been done before in the manner of managing ball clubs. He got away with enough to send the St. Louis Americans up among the leaders for a part of the season and he made a good finish.

Now Branch comes out with the remark that St. Louis will not win the American league pennant. The humor that his team will land in the first division and thinks the club has a chance to finish there—but land the flag? Not this year. He is positive of that. Quer manager.

Columbus Lands Martin O'Toole

Pittsburgh, Pa., March 3.—Marty O'Toole, for whom the Pittsburgh National League Baseball club paid \$22,500 to the St. Paul club of the American Association in 1912, was released today to the Columbus club of the A. A. It was announced at the Pirates headquarters. It is presumed O'Toole was sent to Columbus in connection with the deal whereby Pittsburgh secured Bill Hinchman and Walter Gerber.

WANT JACK TO FIGHT IN JUAREZ

El Paso, Texas, March 3.—Promoters of the Johnson-Willard boxing contest announced today that a committee of El Paso business men had telegraphed Jack Johnson a guarantee for his safe conduct to Juarez and return, offering a cash bond as assurance.

Tom Jones, Jess Willard's manager, said he would not take his boxer to Juarez unless promoters there put up a sufficient cash guarantee.

OPENS APRIL 30
Worcester, Mass., March 3.—The New England Baseball League today decided to open the season April 30 and close it September 6.

IT CAN'T BE DONE

Federal League magnates have drawn a contract which, it is said, will be far more binding on the players than the form issued at first, when "indentures" were necessary to win the ballplayers from organized ranks. At the same time, it is said, the contract will be entirely agreeable to the players. It can't be done.

MACK ONLY WANTS \$50,000 FOR BAKER

New York, March 3.—The New York Americans have offered to pay \$25,000 in cash to the Athletics for the release of Frank Baker, the home-run king. Furthermore, Colonel Jacob Rupert, Jr., and his baseball partner, Captain T. L. Huston, have agreed to pay Baker a salary of \$10,000 a year. These figures, however, have not appealed to Condie Mack, who has notified the Yankee owners that his price for Baker's release is \$50,000.

HERE IS A RECORD

What might be termed a baseball record was established last year by the Port Hope, Mich., County Baseball League. It reaped up \$61 for the year. Therein, boasts of this sleekest baseball league, and there are several clubs in the "circuit." One of the clubs lost \$25 on the season but the league is so rich that the deficit was paid out of league funds.

POOR OLD CONNIE

As for Condie Mack losing his grip they said the same thing when Harry Davis and Frank Sweeney started slipping and falling late and Monte Cross began to wobble. When this old fellow cracked and blew the only people Condie could find to take these things were Melmus, Collins, Barry and Baker.

OUR SYMPATHY, JOHNNY

Camden, S. C., March 3.—Johnny Evers, star second sacker of the White Sox, Champion Boston Braves, threatens to become a newspaper man. He says so himself. The papers of Cub and enthusiastic admirer of Chas. M. Murphy declare he will play baseball about three years longer, then will break into the newspaper game.

Extra Pay No Lure For Sunday, Kept Word With Pittsburgh Club

Philadelphia, March 3.—There's a man out in Wiscasset who is ready to fight any time some one doubts Billy Sunday's sincerity or refers to the evangelist as a "graffer." The man is John C. Young, of 127 Sumner street, and his angle is Sunday's detractors is based on an incident 25 years old.

"It was in the summer of 1890," Mr. Young relates, "I went to the Philadelphia ball park to see a game between Pittsburgh and Philadelphia. Billy Sunday was playing with Pittsburgh.

"When Sunday came to bat a fellow sitting in the bleachers alongside of me turned and said, 'I'd like to see that nuth knock the ball over the fence every time he comes to bat.'

"Why?" I asked him. "Because he's what I call a real man. Do you know he is playing with Pittsburgh simply because he's too much of a man to go back on his word. Here's how it happened.

"Sunday gave his manager of the Philadelphia team a verbal promise that he would play with that team. Before the contract was drawn up and signed he got an offer of more money from another team. Rather than go back on his word, even though he had signed no con-

tract, he stuck by his verbal bargain, and he's playing here today when he might be getting more money some place else.

"Y. M. C. A. Work Here

"He's doing more than that, too," the fellow continued. "Go down any evening to the Y. M. C. A. or to any Y. M. C. A. in a city where Pittsburgh is playing, and you'll find Billy Sunday talking to young men about religion. He's what I call a real man."

"The talk I had with this bleach-erite," Mr. Young relates, "made an impression on me, and I remembered the story a short time after Sunday was transferred to the Phillies. At that time I was

a member of the First Presbyterian church of Manayunk, and I spoke to our pastor, Mr. Burns, about having him come out and talk to the boys.

"Mr. Burns told me to go down to the Phillies' ball park and see him and Mr. Sunday agreed to come out the following Sunday. He stayed with me at my home, and on Sunday night he preached to the largest audience that ever assembled in the Manayunk Presbyterian church.

Took \$600 Job

"Monday morning as I was bidding him goodbye I said, 'Well, I suppose I'll see you at the ball park next summer.'

"I don't know," Mr. Sunday replied. "I don't know whether I'll play ball any more."

"I was astounded, as he was a great favorite with the fans; and I told him they wouldn't listen to his leaving the team.

"Well, you see it's this way: Mr. Sunday went on, 'I've saved up some money, and my wife and I are willing to give some of our money and our time to the Lord. There's a possible chance up in the Y. M. C. A., Chicago, and it may be offered to me. It pays only \$600 a year, but if it opens up I'll take it as a sign from the Lord that He wants me in that kind of work.'

"The job did open up, and Billy Sunday gave up a \$3,000 salary as baseball player and the glory of the ball field to accept it," Mr. Young concluded. "Since that time no one has been able to convince me that Billy Sunday is a 'graffer.'

JACK MOLER "CARVED" IN A BLOODY FIGHT

Jack Moler was frightfully carved by Osa Delaney, in a desperate fight at the former's home, No. 833 Mill street, shortly after 11 o'clock Tuesday night.

Moler was slashed about the left eye, cheek and neck, besides receiving other cuts about the head and five stab wounds in the back. Blood fairly bubbled from his dozen or more wounds, which required thirty stitches to sew up. Both men are employed at the Veneer Works.

Delaney grabbed up a gun and made his escape from the house. Going to the river he, at the point of the gun, forced a shantyboatman to put him across to the Kentucky side in a skiff and is thought to have caught an eastbound C. & O. freight train.

According to the police Moler's wife said her husband was to blame for the trouble. She said they had been visiting at his brother's home,

and upon their return home found that the boarder had drunk some bottled beer belonging to Moler. Though Delaney was in bed Moler began taking him to task for his act and the fight ensued. Delaney had taken a knife to bed with him, evidently "expecting trouble." In the melee Moler broke a bottle of whiskey he had in his hip pocket. He was rushed to Hempstead hospital, where he was reported resting easier Wednesday morning, and bearing pneumonia or other complications, he should recover. He is a son of Tobo Moler, well known hunter and fisherman.

As the police thought he may have gone to his home in Normal, Ky., two miles east of Ashland, the authorities of all up river towns were furnished with a description of him.

The report that the trouble started over a woman is false in every particular, says Mrs. Moler.

Excuses Will Do You No Good Says Bigelow's Pastor

The revival services started at Bigelow M. E. church last Sunday evening by the pastor, the Rev. A. H. Connell, continue to grow in interest and the meetings will last two weeks, and possible three. The singing is in charge of Prof. G. W. Good, Reynoldsburg, O., and he is making a splendid impression by his stirring methods used.

The text of Rev. Connell's sermon Tuesday night was "What Will Thou Say When He Shall Punish Thee?"

In his sermon he stated that people nowadays attach too much importance to what they are going to say, but not enough importance to that which regards an answer to the question of the text. Not that they have any idea of confronting their Maker in judgment without something of an excuse to offer.

Rev. Connell cited the fact that man from the earliest history has always had excuses when it came to a matter of duty to their God. When Adam had sinned in the Garden of Eden he excused himself by placing the blame upon Eve. And Eve in turn blamed the serpent.

But the excuses of all time have never been able to stand even in the light of common sense. Take for instance the excuses cited in the fourteenth chapter ascending to Luke. One man said that he bought a piece of land and he must now go and see it. The idea of a man buying property which he had never seen. The second had bought oxen, which he must now go and prove. Can you imagine a man buying work oxen or horses and paying his money down for them without inspecting them?

The third excuse was the weak, poorest and most selfish of all. One had married a wife, so he

could not come. Where would a young bride rather have gone or found more enjoyment than in the attendance upon so great a feast as this one given by the King of the Country.

The excuses of modern times are no better than the foregoing. Take for instance the excuse "offered by many for not being Christians, because there are hypocrites in the church. While this is true, yet we are forced to acknowledge hypocrites in every line of business or enterprise under the sun. Because a man employed by some life insurance company, bank or mercantile establishment proves unworthy of the trust imposed upon him is that sufficient ground for the condemnation of all life insurance companies, banks and mercantile companies connected therewith? Besides there will be no hypocrites in Heaven and these people who are so averse to the society of hypocrites had better make sure that through the acceptance of Christ as a personal Savior of making Heaven their final destination, for if they go to the other place they may have to associate with all the hypocrites the world has ever produced throughout a never-ending eternity.

Another popular excuse is, "I haven't got time." People will spend years and years in acquiring an education or in the mastering of some trade or profession that will fit them to live in this world. But they say they can't spend ten minutes preparing themselves for that world which is to come. What have you been doing with all the time that has given you? Some day you will have to take time to die. Better spend a little time while you may in getting ready to live.

FIRST PRESBYTERIANS RESPOND TO A CALL

Optimism was the keynote of the meeting of the trustees of the First Presbyterian church held last evening to canvass the results of the Every Member Canvass made last Sunday afternoon. The pledge showed that a large number of the congregation has made increases and many who had not contributed before signed the cards for the coming year. Three hundred and sixty-eight pledge cards were turned in, representing pledges from over five hundred of the seven hundred members.

District Meeting To Be Held In May

Vienna Camp, Sons of Veterans, had a good live meeting Tuesday evening in their hall, Gallia and Findlay streets.

Although the attendance was not as large as usual the meeting made up in vim what it lacked in numbers and by the way, this was the first time in the memory of the present generation when Prof. S. D. Bekhart, Dr. Dan Dodge, Dr. O. D. Donaldson, Deputy County Treasurer "Gill" Dodds and Col. Adam Pfau were all absent in a body.

Two new members were taken through the first degree and five more new ones were elected to membership with two applications pending. The two mustered last night were Attorney Anselm Skelton and D. Lee Reeves of the Times force.

The newly elected are County Treasurer Maurice Caldwell, Clarence Johnson, manager of Liberty Clothing company, C. C. Missett, O. L. Lewis and William West. They will be taken in at next meeting with full side degrees and all the trimmings.

The following invitation was officially received:

Columbus, O., Feb. 10, 1915.
On Tuesday evening, March 16, 1915, Governor Dennison Camp No. 1, Sons of Veterans, U. S. A., will give a reception and welcome to Brother Frank B. Willis, governor of Ohio, in the Memorial Hall Auditorium, 280 East Broad street, Columbus, Ohio, commencing at 8 o'clock p. m., prompt.

You are cordially invited and urged to attend. Your early acceptance requested.

Patronally and courteously,
R. J. WILLIAMS, Chm.
E. F. BERRY, Sec.
E. H. ARCHER, Committee.

Several of the members will make the trip, accompanied by Capt. "Billy" Williams and George S. Carroll.

The date for the big district meeting and camp fire is set for May, first Tuesday or Friday.

It's going to be a great big gathering of the soldier circle if the promoters can make it so, and they are pretty sure they can.

Col. T. L. Aughinbaugh, commanding Ohio division; J. Ed Sherry, secretary; T. A. Collins of Springfield; Senior Vice Commander-in-Chief W. F. Chambers of Cincinnati; and other notables of Sons of Veterans, have promised to attend, while Mrs. Katherine J. Reese of Mt. Vernon, division president of the S. V. Auxiliary, and some of the ladies of her staff will be here. All camps in Southern Ohio will be well represented and the C. A. R. comrades and W. R. C. will be the honored guests of the young orders. Vienna will be assisted at this meeting by their new auxiliary.

Delegates to Division Encampment at Mansfield in June were elected. Those selected are S. Anselm Skelton, D. Lee Reeves, and John New, delegates; and Don H. Jewell, David P. Scott, and Henry Widdelbrook, alternates. The camp is entitled to 21 votes in convention, as all past commanders are life members of Encampment.

After the regular meeting the new degree team, the priests of Bolo-Bolo, the Sacred Snakes and other horrors, practiced stunts to work off on the unfortunate until a very late hour. The team promises to be the "real thing."

AUTO ROBES, BIKES AND OTHER LOOT ARE FOUND IN A RAID BY THE POLICE

The police made a rich haul by uncovering a den of alleged thieves in a raid they made on the "Incubator" tenement house, corner of Fourteenth and Union streets Wednesday morning about 3:30.

Eight automobile robes of various makes and colors, several bicycles, shoes and pants, umbrellas, paring knives and quite a quantity of other loot were recovered when Alva O'Brien, aged 21 years, Floyd Bowman and Ernest Valodini, aged 18 each, were arrested.

O'Brien, soon after confessed, the police say, and implicated the other two young men. He is said to have told the officers, according to the latter, that they had been carrying on a systematic campaign of petty thieving for some weeks past, stealing robes from automobiles at Trinity and the United Brethren churches and other places, taking umbrellas off residence porches and the supply of paring knives from the Portsmouth Supply Company's store, and the pants and shoes from Ellis J. Clowe's second-hand store on Chillicothe street. They had expected, to ship their loot to Columbus next Monday and confederates were to dispose of the goods there. Among the robes taken is the one thought to be the property of Rev. Lloyd Strecker, pastor of Trinity church.

The raid was planned and successfully executed by Officers Tom Albrecht and Charles Flowers.

The officers had gotten a tip that O'Brien had sold some pants and that for some reason no one was permitted to ascend the stairs at the home of his brother, Maynard O'Brien with whom he boarded. The officers in visiting the young man's room were at once attracted to a number of grips and boxes piled up in a corner. O'Brien refused to say what they contained and his brother was called. He at once acknowledged that the boxes were loaded with auto robes, dis-jointed portions of bicycles and other plunder carefully crated and ready for shipment to Columbus. The grips contained bicycle handle bars. Young O'Brien broke down and confessed, though he claimed the bicycles had been brought to him by a boy named Campbell, who had since left the city.

He said that he himself had stolen all of the lap robes. The umbrellas he said were taken from homes on Twelfth street, east of Offshore street. He also admitted to the stealing of pants and shoes from the Clowe store. The fourteen paring knives, which retail at 10 cents each, were taken by Bowman from the Portsmouth Supply company's store, said O'Brien.

There is no direct evidence against Valodini, say the police. No charges have as yet been placed against the trio pending a further investigation as to their activities.

O'Brien just recently came here from London, Ohio, and has been working in a shoe factory. Valodini who lives at 1810 Union street, and Bowman, are cousins.

Rev. Mr. Strecker identified his missing robe among the collection found by the police.

One of the bicycles was identified as the property of John Schleicher and was turned over to the young man.

THE AMERICAN DISEASE

Neurasthenia may be called a distinctly American disease because the condition of nervous strain that produces it is more prevalent here than in any other country. Overwork and worry, ambition, haste, the high tension at which business is conducted, all use up the nerve force and produce neurasthenia. For the disease is simply exhaustion and excessive irritability of the nervous system. A tendency to neurasthenia is inherited by many Americans whose ancestors had but a small stock of nervous energy to begin with. Grief, excessive worry or disappointment in love, business or school work may cause neurasthenia.

The symptoms include a feeling of exhaustion upon rising in the morning, of disturbed sleep, headache, with a sense of weight and tightness about the head. The patient is irritable, difficult to please, and suffers from depression. The treatment is to remove the cause if possible (as when the cause is a removable) take abundant rest, sleep ten hours in bed out of every twenty-four, eat as much nourishing food as possible and take Dr. Williams' Pink Pills to restore the nerves. Bond Issue Beaten By Decisive Vote

Voters in two sections of Scioto county decisively defeated proposed bond issues Tuesday for better rural schools. The proposition to provide a \$30,000 high school building for the use of the pupils of Harrison and Madison townships and the Harrisonville school district was rejected by a majority of four to one. The voters of Madison and Harrison township repudiated it overwhelmingly, while it carried by a fair majority on a light vote in Harrisonville.

The vote on the \$30,000 bond issue and centralization of the elementary schools in Washington township was more close, the former losing by a majority of 30 and the latter by a majority of 23 on a total vote of 240. The county school authorities had hoped to carry the Washington township proposition, although they admitted Tuesday that the vote would be close.

Increased taxation was the rock upon which both propositions went down, the voters refusing to vote additional tax burdens upon themselves, even though better school accommodations were promised by the school authorities who fathered the measures.

About two-thirds of the vote was cast on the Harrison-Madison-Harrisonville proposition, which resulted as follows:

	For	Against
Madison	33	101
Harrison	20	131
Harrisonville	29	10
Total	82	322

In Washington township the vote was as follows:

	For	Against
Bond Issue	95	125
Centralization	97	119

Those in favor of the propositions were greatly disappointed at the results, but they claim that the voters will be asked to vote a second time on the measures.

ENJOY WINTER PICNIC

Members of the River City Grove No. 64, Woodmen Circle, enjoyed a "Winter Picnic" at the lodge hall Tuesday evening, one of the most pleasant affairs ever given by the grove. The ladies on the committee served a delectable menu, which was heartily relished. After the feast the floor was cleared for dancing, which continued until a late hour. Three candidates were initiated.

INGENIOUS, BUT JOE'S TRICK DID NOT WORK LONG ENOUGH TO GET HIM NIGHT'S REST

Joe Abrams picked upon Hempstead hospital as a suitable place for a "lucky flop" Tuesday night. Joe with characteristic ingenuity visited a drug store and purchased some bandages with which he wrapped an arm. Reaching the hospital he told the nurse on duty in the receiving ward that he had injured the arm and that Dr. Braundlin had sent him there. He was removed to the charity ward and put to bed. The nurse then called up Dr. Braundlin for instructions as to the care of the new "patient." The physician expressed great surprise and declared he had not attended Abrams and knew nothing about him. Dr. Jos. Lake, the director of public safety, was next acquainted with the situation. He told the nurse that Abrams could not be admitted under such circumstances and ordered that he be ejected. The janitor was pressed into service and Abrams was made to get up and dress and was then politely shown the door. Declaring that he would be back in a half hour's time and that he would have a bed or know the reason why he snubbed from the premises. Police had meanwhile been informed of his act and held themselves in readiness to take charge of the young man should he resist efforts to oust him.

Several applications were voted upon favorable and a class of candidates will be initiated at a meeting to be held Tuesday, March 9. At this meeting Mrs. Zoa Ray, of Wellston, will be present. She is at the head of Rebekah District No. 68, which includes Portsmouth.

Barbers May Act

There is talk of a breezy session of the Journeymen Barbers' Union tonight. It is claimed that one of the officers has declared his intention of calling attention to reports that one or two boss barbers have been doing work after closing hours. An investigating committee may be named.

To Punish Boys

Having lost faith in their promises to reform, Judge Beatty will send Leo Hodge and Charles Johnson, local youths, to the Boys' Industrial School at Lancaster for indeterminate terms. Both youths have been before the court several times, but have always been able to regain their freedom by promising to do better.

The Hodge boy was recently lifted out with a new suit of clothes, hat, and shoes by Judge Beatty, and he promised to attend school every day. The court learned Tuesday that he had not been to school one day since, and it was also reported that he had committed petty robbery at a grocery store. Young Johnson has also refused to attend school, and has mistreated the younger boys of his neighborhood, according to the court.

FURTHER VIOLENCE FEARED IN PLOT TO LOOT NEW YORK CITY

CHURCHES ARE GUARDED AND MEN SUSPECTED ARE TRAILED BY DETECTIVES

New York, March 3.—In presenting to the grand jury today the cases of Frank Abarne and John Carbone, who are accused of placing bombs in St. Patrick's Cathedral yesterday, District Attorney Perkins will ask for their indictment under a section of the penal code designating as a felony the acts of persons who attempt to explode explosives in any building with intent to destroy, although no damage is done. The penalty upon conviction may be 25 years in status prison.

The arrest of Abarne and Carbone ended an ambitious plot, according to the police, of which the wrecking of the Cathedral was to be only the first of a series of similar explosions directed against the homes of Andrew Carnegie, John D. Rockefeller and other rich men, and extending to the banks.

Police, not in uniform, who were detailed yesterday to maintain a watch over St. Patrick's Cathedral, continued on duty today and it was said that of the strong force of police who have been tracing the men suspected of bomb making, that several would be assigned to guard other churches against which attacks were expected to be made.

Youthful Detective Did Clever Work

The arrest of Abarne and Carbone ended the first detective assignment of Amadeo Polignani, 25 years old, a member of the police force for the past year and until assigned to this case last November, a patrolman on regular duty at an upper East Side station. Under the same badge, the young patrolman won the confidence of anarchists, according to Captain Tunney, to whom Commissioner Arthur Wood gave the order to get the church wreckers immediately after a bomb had been exploded in St. Patrick's on October 13 last.

For months Polignani lived with the man arrested yesterday and made reports of the progress of the plot to Captain Tunney, which enabled the police to carry out flawless arrangements for the capture of Abarne. So quietly were the plans carried out that few of the several hundred worshippers in the cathedral were aware of the slight disturbance caused by the movements of the large force of detectives to capture Abarne. The only slip in the arrangement was the failure of Carbone to appear at the cathedral. He was arrested at his home. The detective bureau announced that Carbone admitted that he had made the bombs.

Anarchist Leaders Claim Bomb Makers Unknown
Prominent anarchist leaders, among them Emma Goldman, Benjamin Reitman, Raymond Fasio and Carlo Tresca, declared that Abarne and Carbone were unknown to them personally and that their nets could not be attributed to an anarchistic plot against wealthy men and banks, such as the police declared to be the case.

It was several hours after the arrest of Abarne and Carbone that John D. Rockefeller, Jr., learned of the alleged plot to kill the more prominent millionaires of the city, including himself, his father, Andrew Carnegie and others. Through his secretary he said he had no comment to make. Andrew Carnegie and Cornelius Vanderbilt also refused to make a statement.

Royalist party agitators are reported to be increasing in importance while clashes between troops and citizens are becoming more frequent.

The fleet is said to have been last reported off Corfu.

ENTIRE REGIMENT JOINS IN SINGAPORE MUTINY; RESIDENTS IMPERILED

Manila, March 3.—Conditions still are serious at Singapore as the result of the mutiny among Indian troops early in February, if reports brought here yesterday by passengers on the steamer St. Egbert are well founded. According to these stories, executions are taking place every day in the public squares of Singapore. Hundreds of mutineers are said to be still at large and it is considered possible an entire regiment was involved in the revolt.

The latest reports are to the effect that 15 Germans from the detention camp joined the mutineers. Ten of them have been re-captured, it is said, and sentenced to long terms of imprisonment.

Some quarters of Singapore still are considered unsafe and residents have been ordered to concentrate in the central sections of the city.

President Directed Passport Case Probe

Washington, March 3.—President Wilson revealed yesterday he had directed the present New York grand jury investigation into alleged passport frauds.

It was indicated, however, that unless indictments were returned the United States could not take notice officially of charges made against diplomatic officers, or embassy attaches. The name of Captain Roy-Ed, naval attaché of the German embassy has been brought prominently into one case. While international law holds a

RUSUME BOMBARDMENT OF DARDANELLES DEFENSES; TURK GARRISONS ROUTED

Athens, March 3.—(via Paris March 3).—Nine battleships took part in yesterday's bombardment of the forts of the Dardanelles. Six of them were British and three French. The squadron advanced to within two miles of Chanak Kalesi, at the narrowest point in the straits. Detachments of the allied troops, which were landed at Kum Kaleh, on the Asiatic side, met the Turkish garrison, which was scattered easily.

The telegraph station on Besika island, near the entrance to the straits, has been demolished.

A dispatch from Athens received Tuesday said the allied fleet had destroyed the "batteries" at Chanak Kalesi (Fort Sultan).

Paris, March 3.—The bombardment of the Dardanelles forts was resumed yesterday, says an Athens dispatch to the Matin, when an allied fleet steamed into the straits. Four battleships are reported to have bombarded positions of the Turkish army along the Gulf of Saros, which is separated from the Dardanelles by the Gallipoli peninsula. The funds and books of the Ottoman bank and the German bank, it is said, have been taken from Constantinople to Konieh, a city in Asia Minor.

An Athens dispatch to the Figaro says:

"Information from reliable sources is to the effect that Turkey now realizes the situation is becoming critical. Defenses are being thrown up hastily at different points along the coasts of Asia Minor. Troops from the Vilayets of Smyrna are being rushed to the Dardanelles region. Desertions are numerous. Placards are said to have been posted in Constantinople proclaiming the Young Turks' leaders traitors. Bitter dissensions are said to have arisen among the Turkish leaders."

ANXIOUS RELATIVES WAIT AT MOUTH OF WEST VIRGINIA MINE

Hinton, W. Va., March 3.—Rescue parties worked in relays throughout the night in a feverish effort to penetrate the depths of the Layland mines of the New River and Phenix Consolidated Coal company, where 183 miners were entombed by an explosion yesterday. Ten men have so far been taken out alive, while nine bodies have been brought to the surface, but owing to the wrecked condition of the mine, rescue work is tedious and it may be days before the workings have been explored.

James W. Paul, chief mining engineer, and his assistant, H. D. Mason, Jr., from the Pittsburgh station of the bureau of mines were expected to arrive here today and take charge of the rescue work.

Earl Henry, chief of the state department of mines, and inspectors John L. Arnold and E. H. Smith arrived last night from Charleston and at once began an investigation into the cause of the explosion. An inquiry was also being made by the county authorities into the disaster, but it was not believed that a coroner's jury would be impelled and begin hearing evidence until all the missing had been accounted for.

Despite the cold, crowds of anxious relatives of the entombed men waited just outside the mouth of the mine all night. As fast as the bodies were brought to the surface they were taken to the temporary morgue, which was erected a few hours after the explosion, and later the relatives will be permitted to attempt to identify them.

CHARGE BANKING DEP'T USED HIGH FINANCE ON THE NELSONVILLE BANK

Columbus, March 3.—That the closing of the Merchants' and Miners' Bank of Nelsonville by the state banking department under the administration of Emory W. Lattanner, as superintendent was for the purpose of ruining the credit of the Hocking Power company of Nelsonville, so that it would be purchased by a rival concern, was intimated in testimony given yesterday before the Winans committee investigating the banking department.

Edward H. Young, president of the Hocking Power company, on the witness stand declared a rival electric company of Nelsonville, financed by New York interests, tried to buy his company, but that he refused to sell.

Superintendent Lattanner announced as a reason for closing the Nelsonville bank was because of bad paper on two companies in which Young was interested. Later Young called Lattanner's attention to the fact that the bank held no paper of either of these companies and Lattanner retracted his former statement, Mr. Young testified.

He declared J. A. Holmes, bank examiner, who had charge of the Nelsonville bank's liquidation for the state banking department, later told other banks which held Young's notes, that Young was "broke" and

they called their loans, which were paid.

Assistant Attorney General Henry Ballard, counsel for the legislative committee, said:

"When the closing of the Nelsonville bank failed to break you, they called certain loans you had secured from other banks. When this failed of its purpose, the other company tried to buy you out. Is that right?"

"It is," replied Mr. Young.

well satisfied with his evening's work. Captain Strimlatter plugged along with fair results, but hoped to do better the next time out. Hopsy Fuller was good and had in spots, getting 'em, so he said, when they were needed. His game was enough to get him back in line to put the deciding contest on ice, and all in all was a pretty handy man to have around.

Charley Ross, lead off man of the Giants, could not locate the head on with any consistency, garnering many splits. His promise to come back next week with bells on. Ed Hickney was a pretty fair pitcher, but regular line, Charley Daehler was not up to the mark, although he was not so bad as he might have been. Alerte Duduit, who rolled two games under the colors of the Giants, had one poor game and one of fair proportion. He dropped out to allow Dallas Lemon to roll the last game and Dallas took the win for a while, but only got 180. George Wilhelm, who beat the Ivory Knobs single headed last week, toppled the timbers for 191 in his sandwich game, but his other two were any several rods. Captain Sheridan held up his end.

Captain Perry Winkler Young was the heavy gun for the Ivory Knobs. In getting in a landing six years ago, losing his tollers by a comfortable margin. Orville Sprague had one of his consistent nights, although his scores could have stood padding and then would not have been of earn fed proportions. Raymond York was there in several instances, getting two dandy games and a rather good one. Hopsy Fuller and William Zeitman got better as the season progressed and was going like a quarter horse in his last game. McCain who rolls hitler and you, had a fair evening and helped immensely. Mr. Bland did fairly well, considering the poor fellow's vision is an unburd of question.

Grand Horr led off for the Spectels, but did not lead his comrades to any mountain top. He did decently well, averaging 150. Druggel James Hager was all swelled up over his first game, getting 193, due to the fact that he deested a turkey in the middle of the game. Thereafter he did not even hear a turkey gobble. Dan Lloyd, well the popular danderer experienced chills, ague and lumbago last night, going through the evening without making a single strike, and that is something more than unusual. His scores speak

THE WAR ZONE DEFINED.

We are asked by many alarmed neutrals to define the war zone created by the belligerents in the great local war of The Star vs The Allies, that said neutrals may come and go without danger of being hit by a stray bullet. We do not see much hope for a definite establishment of the zone. The war began by declaration of war against The Star by the mayor. The Star had given cause for annoyance and the mayor held that he was justified in declaring war, but he claimed The Star started things.

Then followed speedy action by The Star against the mayor's trusty ally and personal scout, Dr. Jos. Lake, that belligerent opening fire upon him with a new 42 centimeter gun. In falling the shells from this bombardment also scattered about and included several other sympathetic subdivisions of the mayor's preserves and they too have been drawn into the war.

Following the smoke of the opening battle, the doctors and red cross nurses i. e. the lawyers, came hurrying to the scene of action and they are tenderly nursing the wounded and endeavoring to conserve their strength for the ordeals to come.

Next, as a counter strategic move, the Mayor and his Allies, sought to extend the war zone, to include a number of sympathetic but would-be neutral Friends of The Star, some being stockholders of that paper, whom the Allies held equally guilty of overt acts because of allegations that they supply the munitions of war to the prime belligerent. Dire threats of submarine attack upon these quasi-neutrals is threatened by the Allies, and bold declaration is made that some of them will be blown up even if they do carry their own flags painted upon their sides. Thus the war zone grew. Lastly The Star proclaimed the neutrality of its friendly neutrals, but declared they would fight, if necessary, though they didn't want to. Then The Star issued a general note extending its own war zone to cover all persons, attached or allied to the Allies in any manner, especially all such as spoke the same language and thought, the same thoughts as the chief Allies.

There you have the zone as it exists today, but it is constantly widening. Our advice to honest belligerents is to go about prepared for eventualities. On the broad high seas of daylight, you are comparatively safe. At night, if you travel abroad in the various zones, you had better have your flag painted on your sides and travel with a private spot light constantly playing upon the flags so that if attacked by a submarine, or you hit a submerged mine, your executors at least can claim damages. Watchful waiting is strongly recommended. But in time of peace be prepared for war. These be dangerous and uncertain days for neutrals.

THEN WHY AND WHEREFORE?

Now again comes the astute counsel for the Norfolk and Western railroad and re-states and re-reverses the fact to be, that the reason the said Norfolk and Western railroad has not proceeded to erect, build and construct that much projected and planned viaduct over its tracks in the classic precincts of Funk's gut, is because of a neglect and failure of the city of Portsmouth to duly and properly comply with a condition precedent, which is viz: that the said city of Portsmouth first and prior and precedent to the said Norfolk and Western railroad entering upon the building, erection and construction of said, shall by resolution declare its intention and purpose not to interfere and obstruct the action and deed of the said Norfolk and Western railway in vacating that portion of its tracks, which runs across Kendall avenue from use as a public highway. Well and good, but that is the exact thing that makes us scratch our heads. The sagacious counsel, so zealous in technically guarding the interest of client, asseverates that the city has no right, claim nor color, of title to this particular part of Kendall avenue, sought to be declared non-contestible. Pleading non-contestible to that, which means we do not contest the fact stated by counsel, we ask, why then shall the city solemnly avow its purpose not to assert an act it can not do and wherefore does an enterprise of great pith and moment hang upon a mere negation, a thing that has no legal existence and can have no legal effect?

We note that Representative Snyder, of Circleville, has introduced a bill to take the control of city hospitals away from the directors of public safety and to place an unsalaried commission of three citizens, to be appointed by the mayor, in charge of same.

AND AFTER THEY CAPTURE IT--?

AGAIN THE DR. LAKE CASE.

When an official is under charges, whether they be true or false, his usefulness as a public servant is seriously impaired, if not destroyed entirely. Not only are his acts viewed with suspicion by a large section of the populace, but he fails to command the necessary respect from subordinates, while his own state of mind is generally such that he is unable to give that attention to his duties that is to be expected.

Especially is this true when vagueness of charges, or public rumor, tends to talk reflecting upon the general character or standing of an official. In private life a man may sometimes be alleged to be guilty of lapses, or he may suffer from unjust suspicion and consequent talk, and while it may do him much injury, still it is passed over by the public as a private matter and not much attention paid to it except by personal friends of the one involved. It is quite different with charges of any character against a man occupying public position. At once the interest of the community is awakened, and the public sense of what is right and what is wrong demands that the situation be cleared up, that the alleged offender be dismissed if guilty, or that he be set right and his accusers face the consequences, if his complete innocence be established. And in these matters the public is often not willing to discriminate between guilt and foolish indiscretions that might give foundation to rumors, but like the man from Missouri, they want to be shown.

Realization of this latter fact is why we are insistent that there should be speedy clearing up of the situation created by the demand of the Portsmouth Star that director of public safety, Dr. Joseph Lake, be asked to tender his resignation and a probe be made of various city departments. If it cannot be done in one way, the mayor should see to it that it is done in another, as it lies in his power to secure speedy action. The statement of the mayor that he will not act as no charges have been filed with him, is an evasion of duty that is somewhat surprising in him as in other cases he has shown extraordinary zeal to sift charges upon even so vague a hint as an anonymous letter. In this case, a responsible newspaper has made public accusation and demand, coupled with the assertion that it "has the goods" to back up that demand. That would seem sufficient to warrant our chief executive to take action, as provided by law, which would enable him to get at the true facts, exonerate the accused or else find warrant for permanent suspension from his duties.

The citizens of Portsmouth are entitled to the facts, all the facts, and the circumstances surrounding them, that may throw light upon the situation.

The more delay there is, the more seeming reluctance to act there is, the more difficult the situation will become for the mayor and his subordinate.

THE TEACHERS' INSTITUTE PROBLEM.

We have heard from some teachers of the city and county, and they are of the same opinion as advanced in these columns in regard to the county teachers' institute, namely that it was most unfortunate and detrimental to the true educational interests of the county that the annual teachers' institute was abandoned. These teachers with whom we have talked state that institutes have been growing in interest and value, that their importance to the teachers cannot be overestimated, and through them that importance reaches on down to the parents of the children who are in the care of these teachers. And there is great reason in this. For a better equipped teacher means a better chance for the pupil.

It is also asserted that the responsibility for the abolishment of the county teachers' institute rests upon the shoulders of Prof. E. O. McCowen, the county superintendent of schools. It is charged that he conducted a most energetic campaign with that end in view. The reasons for his alleged activity have not been stated publicly by Mr. McCowen.

If it be true that County Superintendent McCowen is responsible for the destruction of the only gathering at which city and county teachers are brought into contact for the general exchange of ideas, it is most unfortunate. We confess that we would be sadly disappointed in the man, and firmly believe that he has made a serious mistake.

In the great war of the Star against the allies, consisting of the mayor, the director of public safety and the manager of Hempstead hospital, we have hoisted the flag of absolute neutrality. We, however, vigorously object to sponsorship of the proceedings, cling to our rights as a neutral to carry on peaceful commerce with the belligerents, and shall expect the warring nations to allow our scouts to come and go without danger of submarines or mines.

It becomes more and more evident that the Hon. Henry T. Bannan has "come back" in Seinto county Republican politics. That he is closer to the ear of Governor Willis than any other local man is equally clear, in fact it is said that Mr. Bannan is so close that no one else can shout loud enough to make the governor hear. The latest evidence of Mr. Bannan's pull is the landing of a fat job for Architect W. A. DeVoss, who had never taken any particular interest in politics. Yet DeVoss lands while the famous bunch of "Oh, Lord, please give me an office" gangsters all around snickering their thumbs, licking their chops, and hoping against hope for a crumb. These surely do be sad, dreary days for the old gang outfit.

Investigation is another of those little games that does not seem to be overwhelmingly popular in these diggings.

An Old Man's Job

When a young man sits on a bench in the park, You're sorry—a little—for him. But the future needn't be dreadfully dark For a youngster with vigor and vim. But the park-bench man who's the tragic man, Who brings to the throat a sob, Has a paper whose lines his dull eyes scan In search of an old man's job.

Shoulders age-beat beneath a shiny coat, Face that is wistful and lined, Weak, faded eyes, eager bent, to note The pitiful chance they may find In the paper held by the knotted hands That shake a bit as they hold; The chance is so little, he well understands For a job for the man who is old.

Gray, scant hair, and a leg that drags As he rises and limps away With a half-born hope that never flags Till the close of a fruitless day. Employer men, you are rushed, I know— Your duties throng in a mob; But give him, please, just a little show Who asks for an old man's job. —Miriam Teichner, in New York Globe.

CAN YOU GUESS IT?

And did you guess the animal I gave you yesterday? It was a BAT—that wasn't hard to tell. And now I'm going to give you one that doesn't live round here, And so you do not know it quite so well.

The animal I have in mind is something like a goat, And lives away up in the mountains high; It scrambles up the steepest cliff so very nimbly, You really couldn't catch it if you'd try.

It has a splendid pair of horns, which curl back at the top; Its tail is short and black, and do you know, Its hair is brown in winter, and is grayish in the spring? That is most curious, but it's really so.

You'd be surprised if you could see the little creature jump Across a chasm that would take your breath, And it can calmly walk along beside a precipice, Where you and I would 'most be scared to death.

It's very fleet and graceful, and I'm sure that you have seen Its picture in your big geography. I'll tell its name tomorrow; in the meantime I will give A little hint—its name begins with "C."

MAYOR'S COMMITTEE STILL SHY TWO MEMBERS

The Civil Service Commission May Be Called Upon

Prospects did not seem any brighter Wednesday morning for Mayor Frick securing a citizens' committee to probe the Star's accusations against Dr. Jos. Lake, and the public safety department, and while efforts were still under way to induce certain persons to serve it was not thought that they would prove successful.

The mayor's next plan, he says, will be to throw the whole affair

into the civil service commission's hands. He would have done so ere this but he was averse to the plan because that body is composed of two Democrats, Jasper Newman and John Wurster and but one Republican, Henry Scott. He much preferred to have the investigation conducted by Republicans exclusively to satisfy the public that there was no thought of a "white wash."

MAYOR WILL ENTER "BOMB PROOF" CELLAR

The mayor also announced Wednesday that he had decided to remain away from the hearing and investigation should a committee be secured to act, and would have the committee's meeting presided over by one of the judiciary of the city. He would pass upon the findings of the committee as presented to him.

Dr. Lake had nothing particular to say Wednesday save that he was anxiously awaiting the investigation. He said his department had at all times been open to inspection and that he had no fears as to the outcome of a probe no matter by whom it might be conducted. He had not suggested a single person to the mayor to serve on the investigating committee and cared not who would be selected in the end.

While he himself is not a civil service appointee he too was willing that the probe be conducted by the civil service commission if it is impossible to get any citizens to serve as an investigating committee.

Miss Helen Lowe, superintendent of Hempstead hospital, is a civil service employee and the commission is the very body, said he, that should rightfully investigate her administration of the hospital affairs.

WANTS CHARGES PRODUCED

"It's up to the Star to produce its charges, now that I have publicly requested and demanded an investigation," said Dr. Lake.

The mayor let it be known again that he will always insist that the city hospital be so conducted and regulated that it is open to inspection by citizens and the public generally at all times and if conducted as it ought to be no visiting committees were necessary.

The mayor said the attitude of the Morning Star as to the dismissal of William Ballman as city building janitor was ridiculous. "Any citizen's good judgment

SAYS MAYOR IS BLUFFING

Under the caption "The Mayor Is Bluffing," the Star commented as follows this morning on the situation:

"There will be no investigation of city affairs if city officials can help it. So far as they are concerned it is the last thing they want and what they have done up to date is all a gigantic bluff."

"The very proposition advanced by the mayor, that he would appoint an investigating committee, the personnel of which should be subject to the approval of those to be investigated, showed on the face of it that no honest investigation was contemplated. It was an absurd proposition. Those to be investigated were to select the judges. Did you ever hear the best of that? The bombastic interviews, the heart-throb letters, all bluff."

"The mayor has been mighty 'nosy' about the private affairs of all sorts of people. He has put his police on the track of dozens of cases that were none of his business nor the business of the police. Officers have swooped down on the innocent stranger who waited too long for his car. Barking dogs, crowing roosters, over-loud pianos, have been investigated by the Grassville squad, not once but many times. In fact the police and the police court have been made ridiculous and the whole thing has been turned into a school for petty scandal."

SOME FOOD FOR THOUGHT

"If the mayor really wishes to know, let him inquire for instance whether the night sergeant has or has not given patrolmen credit for time when he knew they were not on their beats?"

"Inquiry might also be made as to whether the city service auto was ever used to meet people at the theatre and take them to the city hospital. If so, how often was this done and at whose

JACK MOLER "CARVED" IN A BLOODY FIGHT

Jack Moler was frightfully carved by Osa Delaney, in a desperate fight at the former's home, No. 833 Mill street, shortly after 11 o'clock Tuesday night.

Moler was slashed about the left eye, cheek and neck, besides receiving other cuts about the head and five stab wounds in the back. Blood fairly bubbled from his dozen or more wounds, which required thirty stitches to sew up. Both men are employed at the Veneer Works.

Delaney grabbed up a gun and made his escape from the house. Going to the river he, at the point of the gun, forced a shantyboatman to put him across to the Kentucky side in a skiff and is thought to have caught an eastbound C. & O. freight train.

According to the police Moler's wife said her husband was to blame for the trouble. She said they had been visiting at his brother's home, and upon their return home found that the boarder had drunk some bottled beer belonging to Moler.

Though Delaney was in bed Moler began taking him to task for his act and the fight ensued. Delaney had taken a knife to bed with him, evidently expecting trouble. In the melee Moler broke a bottle of whiskey he had in his hip pocket. He was rushed to Hempstead hospital, where he was reported resting easier. Wednesday morning, and bearing pneumonia or other complications, he should recover. He is a son of Tobe Moler, well known hunter and fisherman.

BRUTE CLIMBS IN WINDOW; ATTACKS A LITTLE GIRL

Fred Armstrong, a city garbage man, was awakened from his sleep by the screams of an eight-year-old daughter at his home, No. 917 Fourteenth street, Tuesday night and found an unknown brute had choked her.

The child was asleep in bed with two other little girls when

attacked and in the dark was unable to see her assailant or tell whether he was white or black. Investigation showed the man had climbed through a window by placing a barrel against the outside of the house.

Armstrong told the police that he had heard no one running from the premises nor was he able to find the slightest trace of the intruder. The officers were inclined to the belief that the motive was robbery and that the unknown probably had designs on Mr. Armstrong's money, he having drawn his pay check Tuesday.

The ship remained ablaze with light and with all flags up while steaming through the war zone and until safe waters were reached.

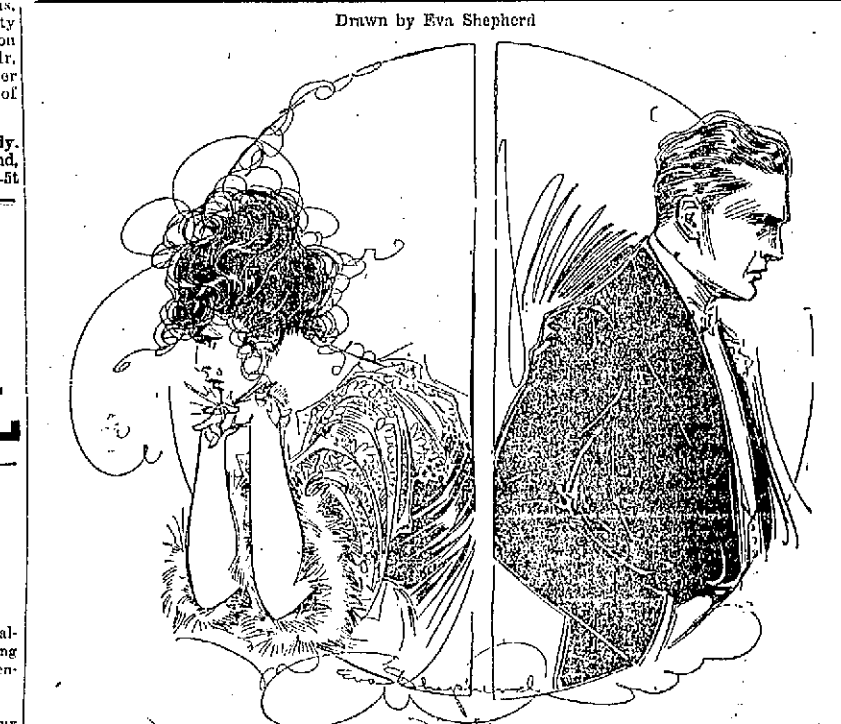

The New York had 221 passengers aboard. Thirty-one of them, mostly women, buyers for American business firms, came from Paris to Liverpool to catch the boat.

A DIFFERENCE OF OPINION

Two persons may look at the moon and find cause for dispute. "There's a man in it," is the opinion of one. "It's a woman. You can see her as plainly as can be," says the other. And yet it's the very same old moon! It's all in the point of view! The person who looks through rose-colored glasses sees a different world from him who gazes through smoked spectacles! And Tolerance of Each Other's Opinion is the first lesson in the Primer of Matrimony!
